

Photography: Good Shepherd Church

7-07

Posed still photographs of the wedding party may be taken before and after the ceremony, but not during the service. Arrangements need to be made ahead of time with the church to have the doors open, and the church will remain available for 30 minutes following the service for interior photography.

After the bride enters and the service begins, all photography will be accomplished from the balcony, without flash. **Please note that no flash photography is allowed during the service**, either by professionals or friends-please pass this along.

Video taping of the wedding, if desired, can only be done on tripods mounted in the balcony or in the rear of the church. Any other fixed locations can be discussed.

Below is a short list of previous wedding photographers that have photographed weddings at Good Shepherd. We can make no recommendations.
